**Subject:** manifest  
**Attachments:** MANIFEST-CLEAN HARBORS (1).pdf

There is a committee that is in place at Camp Minden that was started about the time Camp Minden had some old munitions explode at Camp Minden. The committee still is functionally.

The chairperson of the committee associated with Camp Minden sent Wilma the attached manifest. I made a trip to Camp Minden earlier this year to talk to the colonel about the shipment that was to be sent to Clean Harbors Colfax. At that time he was not sure if the hazardous waste had been sent.

It is now public record, and the chairperson of the committee got the attached copy.

The document will be submitted as part of the public comments.

Brenda Vallee
